#### Overview

In today's world that is human capital intensive, time is money. Hence, the actual work time contribution by employees could significantly impact both productivity and profits of a company.

**TimeCheck** offers you a complete Time & Attendance solution to improve your business productivity with instant processing of employee time and efficient management of shifts, leaves & permissions, overtime, month & year closure and much more, with provision for payroll integration.

**TimeCheck** is an enterprise grade web-based software for processing time recorded using any Industry standard SmartCard or Biometric terminals across the organization, including remote locations over the Intranet or Internet.

With **TimeCheck**'s configuration ability to fit your organization's business rules, it helps managers take timely decisions in running their operations by simplifying time-consuming routine of processing their employees' attendance data, against the allocated shifts and approved leaves to arrive at normal time and overtime.

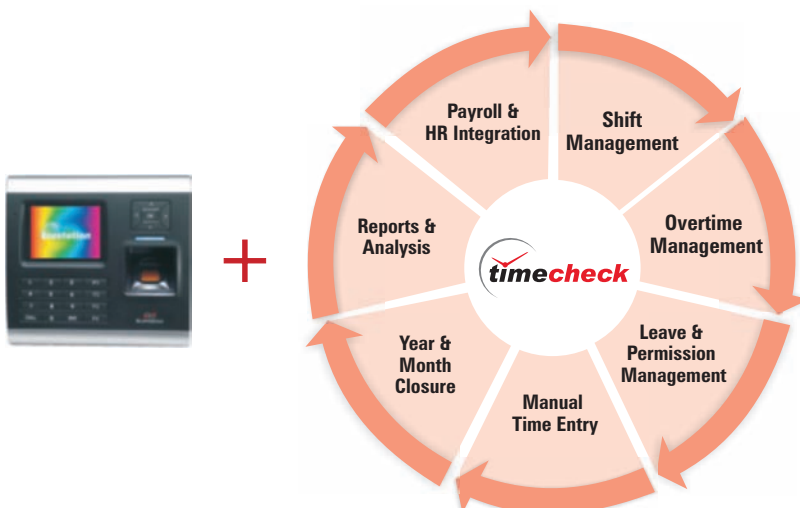

## Benefits

- Web-based software
- Efficient real-time data processing
- Works over both Intranet or Internet
- Compatible with most Terminals
- Improved staff productivity
- Increased cost savings

## Applications

- Small & Medium Businesses
- Large Enterprises
- Manufacturing & Engineering
- Medicine & Healthcare
- Software & Services
- Government & Associations
